CADISON Project Navigator

The Module for Project Managers and
Repair & Maintenance Teams

## The Challenge:

In large-scale plant projects, finding the right information quickly can be frustrating.

1 Massive volumes of project data pile up across folders and systems

2 Non-design users (like project managers or maintenance teams) struggle to locate the data they need

3 Manually searching for files is time-consuming and error-prone

4 There's always a risk of accidental data modification or unauthorized access

The Solution: CADIS◆N Project Navigator

A specialized module designed for accessing project data effortlessly with users getting read only access to the project databases.

Centralized Access

Read-Only Security

User Friendly Interface

Who It's For

- Project Managers
- Maintenance Teams
- Plant Operators

What You Can Do With Project Navigator

Ensure continuity of data usage from design to maintenance, including full data access via Project-Navigator.

- ✓ View project Documents/Drawings
- ✓ Export Documents/Drawings (as .DWG neutral files)
- ✓ Generate reports – from proposals and calculations to BOMs and part lists
- ✓ Create PDFs of documents, reports and drawings
- ✓ Search & filter with Object Inspector
- ✓ Review project data
- ✓ Display task containers

CADISON®

Key Benefits at a Glance:

- ✓ Easy access to all project data fr non-design users
- ✓ Read-only environment ensures data integrity
- ✓ Integrated reporting for fast documentation
- ✓ Seamless user experience with CADISON interface
- ✓ Improves long-term plant maintenance and operation efficiency

CADISON Project-Navigator is more than just a viewer - it is a strategic tool that not only enhances operational efficiency but also supports the vision of a truly Integrated Digital Plant Model, closing the loop from quotation to commissioning and beyond.
